

Advice, expertise and training in spill preparedness and response

www.cedre.fr
contact@cedre.fr

Cedre snapshot

Fields of expertise

Seas and oceans

Inland waters

Oil

Chemicals

Microplastics,
litter

over
40 years
over
50 people

Public policy support

Public service mission

European MAR-ICE focal point
on behalf of **EMSA**

FIPOL Observer status

National and international clients

Public bodies

Industry

Our day-to-day expertise

Emergency response

150 activations each year

24/7 remote assistance over the phone

Modelling and experimentation tools

On-site expertise

Analysis capacities

Analysis and testing

120 oil products and
60 chemicals studied

Pollutant analysis

Equipment evaluation

Efficiency and ecotoxicity of response products

Training

1300 trainees per year

Standard and bespoke courses

At Cedre or on site

Theory, practical and e-learning sessions

Compliant with international standards

With release
of real oil

Contingency planning

200 plans delivered

Audits, risk analysis and practical exercises

Development of spill contingency plans

Research

2 theses each year

Scientific and technological intelligence

Post-spill technical and environmental monitoring

Fate of pollutants in the environment

Ecotoxicity and risk analysis

Aquatic litter monitoring

63 monitoring sites

Scientific and technical support for the implementation of

actions to reduce waste in aquatic environments

Coordination of three national monitoring networks

Resources

More than 20,000 titles available

Operational and learning guides

Documentary collection

Media library

One-of-a-kind technical facilities

Training, equipment deployment and testing,
release of real oil and chemicals

Behaviour and characteristics of oil,
chemicals and plastic litter.
Testing and impacts of response products and pollutants
on living organisms, ecotoxicology

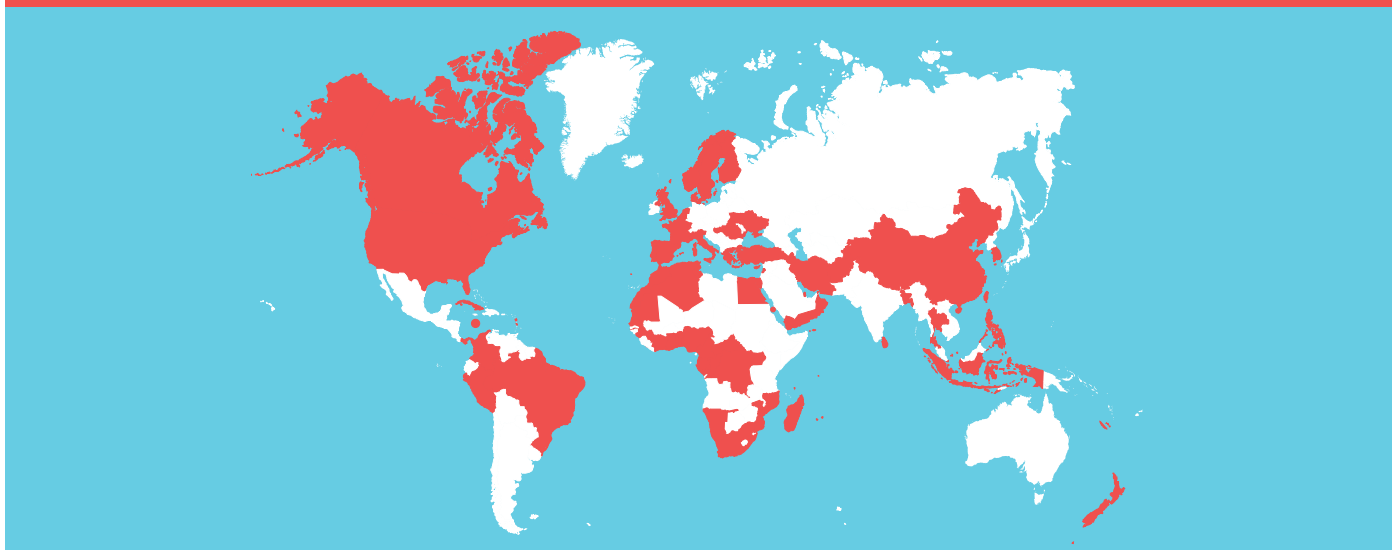

Emergency response

Faced with accident water pollution?

Call our emergency hotline on **+ 33 (0)2 98 33 10 10**
