### List of tested and approved response products

#### Product listings

Response products are recorded on the list of approved products without prejudice to the procedures prescribed in French law n°77-771 of 12.07.77 amended by law n°82-905 of 21.10.82 relating to chemical product testing and its implementing regulations.

If the data is not updated on a three-yearly basis, Cedre cannot guarantee that the product is still available for purchase and certify that it still meets the characteristics of the analysed sample.

#### Use of the Cedre logo

The Cedre logo may be displayed on communication documents presenting the product or equipment tested subject to:

- approval by Cedre of the product or equipment tested
- approval of the communication document (flyer, poster, etc.) by Cedre's Information Department.

#### Product changes

Manufacturers may be liable change the composition or nature of the products they sell at any time. If in doubt, please contact Cedre's laboratory to request a product quality control test (rates according to current price list).
